

New model.
Lower weight with smarter options.

- 1 Side profiles made according to unique KH-KIPPER design (multibended), less weight („ribs" optional)
- 2 Left side hydraulically operated (Hydroboard®) with 2 cylinders, Hydroboard® allows for opening left side up to 180°
- 3 Right side with upper and lower hinges opening downwards by means of spring compensation which allows for easy operation (optional)
- 4 Rear flap placed inside tipper frame in the rear (between the posts), locking hooks automatic, opening limited by chain and hooks
- 5 Hydraulic installation for trailer operation, double circuit (optional)
- 6 Width 2 410 mm which allows to load two pallets side-by-side
- 7 New system of top hinged side wall – overlap (improved fitting of side wall to the floor edge)
- 8 Rear underrun protection, foldable by means of springs (optional)
- 9 Foldable ladder on front-left side
- 10 10 lashing rings in the floor and 2 on front wall according to EN 12460 (optional)
- 11 Steel lines securing against tipp-over
- 12 Body props, service support
- 13 Rear wall opening limiter (optional)
- 14 Tarpaulin rolling system (optional)
